

Diego Tamargo

Profile

Final-year Industrial Organization Engineering student interested in Data Science and Process Automation. Looking for roles that combine analytical data work with project management.

Professional Experience

PMO & AI Department Intern

06/2026 – 8/2026

Ingeniería y Calidad Sostenible (INGECA SL)

- Built Python scripts and applications to automate corporate workflows and document processing.
- Built a corporate AI RAG (Retrieval-Augmented Generation) system for auditing regulatory and compliance frameworks, using BM25 lexical search and Reciprocal Rank Fusion (RRF). To watch more, see my github profile.
- Built a deep learning pipeline to automatically extract buildings and roads from georeferenced aerial imagery and export them as CAD-ready vector data. To watch more, see my github profile.

Bilingual AI Trainer

01/2026 – Present

DataAnnotation, Remote

- Crafted complex mathematical or physical prompts to challenge the model's performance.
- Reviewed LLM outputs for localization, quality and coherence, flagging errors for retraining.
- Evaluated data sets and wrote structured feedback for AI model training, checking outputs for consistency and factual accuracy.

Mathematics and Physics Tutor

03/2025 – Present

Freelance

- Tutored students in Mathematics and Physics, explaining core concepts in plain terms.

Education

Industrial Organization Engineering

09/2023 – Present

University of Oviedo, Gijón, Spain

- 180/240 ECTS in English corresponding to three out of four years, including one in Erasmus mobility.

Certifications & Professional Development

- **Data Science Professional Certificate** - IBM (180h)
- **MATLAB Skills for the AI Era** – MathWorks (25h)
- **Supply Chain Analytics** – Rutgers, The State University of New Jersey (9h)
- **Fundamentals of AI Agents using RAG and LangChain** – IBM (11h)
- **Introduction to R Programming for Data Science** – IBM (10h)

Skills

Programming & Data Analysis: Python, R, Matlab, Excel

Technical Integration: Data Science, Deep Learning, AI Integration and Automation
